

## COSGAYA – VEGA LINARES FACTSHEET

Distance: 5 k

Time: 2 1/2 hours

Difficulty: Low (the route is signposted)

Area: Picos de Europa – Cantabria

### Walk 6 Cosgaya – Picos de Europa

Leave the hotel and head towards the upper part of Cosgaya. Before reaching the first houses, at a very sharp bend in the road, take a path to the right. Follow this for 200 metres and after passing a mill and a bridge take a path to the left, which gradually becomes narrower as it gently climbs, running parallel to the River Cubo. After going through some meadows the path crosses the river and becomes steeper for 300 metres before coming out into a broad track, suitable for vehicles, which you must follow to the left before returning in a gentle descent to the starting point in the upper part of Cosgaya.

If you continue uphill to the right where you join the vehicle track, you can climb up to the Puertos de Cubo, the Llesba viewpoint, Pico Coricao etc.
